

THE LEAF

1ST QUARTER
2023

Triterra is a professional environmental consulting firm specializing in brownfield development, environmental consulting, and natural resource management services. Our team is dedicated to improving the quality of the natural environment within the community while providing consulting services that are tailored to the best interests of our clients. Our staff is committed to providing practical environmental solutions through a creative process that incorporates integrity, innovation, and responsiveness.

HIGHLIGHTS FROM OUR FIRST QUARTER IN 2023

As we reflect on our first quarter, we are humbled and grateful for the exciting moments and opportunities for growth that have come our way. We feel incredibly honored to have been a part of Michigan Community Capital's Lofts on Rowe project in Ludington, which was recently chosen for a 2023 Michigan Historic Preservation Network Tax Credit Award. Attending events such as the Sparrow Gala, Merrill High School building renovation project open house, and Eaton Rapids Education Foundation's Annual Fundraiser allowed us to connect with and support our community. We also had the pleasure of hosting a Capital Commercial Connections event at Ellison Brewery and Event Space in REO Town and a team-building happy hour at People's Kitchen with our friends from Forsberg Real Estate and Dymaxion Development! Looking ahead, we are excited about the possibilities and eager to continue serving our clients and community with dedication.

MEET CARRIE FEHER

Carrie joined Triterra in 2021 and has recently been promoted to the Manager of Accounting & HR for the firm. Feher obtained an MBA with a concentration in Human Resource Management from Davenport University as well as a BA in Psychology with 2 minors: Women and Gender studies as well as Sociology from Michigan State University. Her current role with Triterra is unique in that it allows her to perform in two different areas. On the accounting side, she oversees Triterra's account payables and receivables as well as working to develop improved practices within these areas. Within her role in human resources, Feher is primarily responsible for developing and maintaining Triterra's policies and procedures pertaining to employee relations, workplace safety, onboarding, and offboarding.

We asked Carrie what she likes about working at Triterra and she said "Definitely the people and the culture! Triterra works very hard to maintain a positive environment and they are succeeding in doing so. I'm very lucky to work with such an amazing group of people who consistently uplift and support each other."

When Carrie isn't at work her favorite thing to do is spend time with my family and friends. During the warmer months, she enjoys trips to the lake, kayaking, and bonfires. In the winter, she spends time doing things like watching movies, canvas painting, and playing games.
