TRITERRA

2ND QUARTER
2023

Triterra is a professional environmental consulting firm specializing in brownfield development, environmental consulting, and natural resource management services. Our team is dedicated to improving the quality of the natural environment within the community while providing consulting services that are tailored to the best interests of our clients. Our staff is committed to providing practical environmental solutions through a creative process that incorporates integrity, innovation, and responsiveness.

HIGHLIGHTS FROM OUR SECOND QUARTER IN 2023

We hope this update finds you in high spirits and eager to learn about the exciting developments that have taken place at Triterra during the second quarter of this year.

Moving Forward: Into a Larger Space

One of the most significant milestones for Triterra in the second quarter was our move into a larger office space. This expansion allows us to better serve our growing team and accommodate our increasing client base.

Don's Spotlight on American Entrepreneur

We are incredibly proud to announce that our very own Don McNabb, recently appeared on American Entrepreneur. Don's appearance provided an excellent opportunity for us to share our expertise and showcase Triterra's commitment to sustainability, environmental stewardship, and successful project delivery.

Lansing Reception on Mackinac Island:

As strong advocates for building meaningful connections, we were delighted to attend and sponsor the Lansing Reception on Mackinac Island. This not only allowed us to engage with fellow professionals but also provided a platform to share Triterra's mission and service offerings.

Staff and Family Outing:

To celebrate our accomplishments and strengthen our culture, we organized a staff and family outing to enjoy a Lansing Lugnuts game. We value the dedication and hard work of our team, and events like these help us build lasting relationships beyond the workplace.

Rockford 2nd Annual National Safety Month Vendor Fair

As a company dedicated to safety and sustainability, Triterra actively participated in the Rockford 2nd Annual National Safety Month Vendor Fair. We engaged with industry professionals, shared knowledge, and built partnerships that will enable us to continue making a positive impact.

Teeing off into Golf Outing Season

With the arrival of summer, Triterra is excited to announce that we are now entering the much-anticipated golf outing season. Which is an excellent opportunity for us to connect with our clients, partners, and friends while enjoying a day on the greens.

As we reflect on the second quarter, we are grateful for the continuous support and trust that you, our clients and partners, have placed in Triterra. With your collaboration and our unwavering dedication, we are confident that the third quarter will bring even more remarkable achievements and opportunities for growth. Thank you for being part of the Triterra community. We will continue to uphold our core values, deliver exceptional service, and create healthier communities together.

CREATING HEALTHIER COMMUNITIES THROUGH
PRACTICAL AND CREATIVE ENVIRONMENTAL SOLUTIONS

COMPANY HIGHLIGHTS

TRITERRA IS PLEASED TO ANNOUNCE THE ADDITION OF TWO NEW STAFF MEMBERS

Bryan Crandall
Industrial Hygienist

Erik Eikey
Industrial Hygienist

Triterra welcomes Bryan Crandall and Erik Eikey to our Industrial Hygiene Management Services team. Crandall has more than 15 years of experience in the Construction & Restoration Industry and has always had an interest in focusing more on the environmental side so when the opportunity came to join Triterra he made sure he took it. Eikey has over 5 years of experience working in all aspects of Industrial Hygiene. He worked as a laboratory manager, and he also has over a year of experience conducting fieldwork and report creation for Phase 1 Environmental Site Assessments.

MEET GREG OSLOSKY

We would like to introduce you to Greg Oslosky, an Associate Geologist at Triterra. With his extensive experience and passion for his work, Greg plays a vital role in the company. Let's get to know him a little better. When it comes to podcasts, Greg is a big fan of "The Bill Simmons Podcast" and "The Baseball Tonight Podcast." As for books, his favorite is "A Short History of Nearly Everything." Within Triterra, Greg takes on multiple responsibilities. He manages projects and develops work scopes to assist clients through the regulatory process. Additionally, he provides technical assistance on a wide range of projects, leveraging his expertise to ensure successful outcomes. Greg has 19 years of experience in the environmental consulting field, giving him a deep understanding of the industry's complexities. He holds a Geology degree from the University of South Florida and is a Licensed Professional Geologist. One aspect Greg particularly enjoys about working at Triterra is how well Triterra treats its employees. This collaborative spirit makes everyone's job easier, as they can rely on their coworkers for assistance and teamwork. When not at work, Greg's priority is spending quality time with his kids. They enjoy taking their dog for walks on the trail and swimming in the pool together. Greg also finds relaxation and fulfillment in working in his yard. Greg Oslosky is a valued member of the Triterra team; his dedication to his work and commitment to creating a positive work environment makes him an asset to the company and a pleasure to work with.
